

DIAGNOSTIC MEDICAL SONOGRAPHER NEEDED
VALLEY MEDICAL IMAGING – ABBOTSFORD/LANGLEY, BRITISH COLUMBIA
FULL-TIME POSTING - MINIMUM 18 MONTH LEAVE
POTENTIAL FOR PERMANENT POSITION

Valley Medical Imaging is located in British Columbia's Fraser Valley and has been providing the communities in the area with medical imaging services for more than 60 years. We are currently recruiting an accredited, full-time Diagnostic Medical Sonographer in Abbotsford and Langley, B.C. This placement is for a period of a minimum of 18 months to cover a leave, with potential to move into a permanent position. We also have part-time/casual openings in Langley and Abbotsford, B.C.

Schedules require no weekends, evenings, or call and our clinics offer a positive working environment.

The ultrasound equipment is newer Toshiba/Canon Aplio 300 with colour Doppler and a full PACS system. Sonographers perform a variety of general ultrasound imaging including Abd, OB/Gyn, small parts, and musculoskeletal.

The Abbotsford clinic is located an hour from downtown Vancouver and is easily accessible to many activities including numerous ski resorts and golf courses, boating on the nearby lakes or rivers, hiking and camping in beautiful parks or attending the artistic, cultural and sporting events offered nearby. Local housing prices are some of the lowest in the Lower Mainland.

Salaries are competitive and an excellent benefits package is offered including 4 weeks of vacation to start, extended health and disability plans, education allowance, sick pay, Group RRSP Program and more. Relocation assistance to help with your move to this area is also available if you are moving from outside the Lower Mainland.

Successful candidates must be an active member of Sonography Canada with insurance.

Please submit your current resume to:

Colleen Uhrin, Chief Operations Officer
Valley Medical Imaging
