

# STEPHANIE ROCHFORD, CRCS, CRGS, CRVS

---

## 1. WHY ARE YOU INTERESTED IN THIS POSITION?

I'm interested in this position because I would like to contribute to our profession and see it grow. Being a sonographer during a pandemic has been eye opening in how we are treated in the medical field, and I would love to be able to bring more awareness to how integral our job is for finding a diagnosis for our patients. I look forward to facing challenges of having our voice heard in the medical community and seeing if we can bring new opportunities for growth to our sonographers across Canada.

## 2. WHAT PERSONAL STRENGTHS CAN YOU BRING TO THE BOARD OF DIRECTORS?

Some of the strengths I bring would come from my previous experience and background as a science teacher for grades 7 to 12. During my time teaching, I was a standards setter for the Alberta Government for the grade 9 provincial exam.

Also, in my current role of Site Lead for a multi-modality clinic in Alberta, I have the opportunity to work and learn from the different modalities in my clinic as well as being a part of the hiring process for the clinic.

I have also worked with scheduling in different aspects in my life such as having to create multiple schedules for different teams in my company, creating a classroom schedule when teaching, as well as scheduling myself and other volunteers as part of my Live Stream Director responsibilities in my church.

## 3. WHAT PREVIOUS VOLUNTEER EXPERIENCE DO YOU BRING TO THE BOARD OF DIRECTORS?

This would be my first time volunteering in this profession. I thought, if I was going to volunteer, I should go big or go home! I am always willing to learn and expand my horizons and would love to contribute to our profession in this way.
