NCP \	Version 7.0	Gen	Card	Vasc	Changes from 6.1 to 7.0	NCP \	/ersion 6.1	Core	Gen	Card Vasc
1.0	COMMUNICATION					1.0	COMMUNICATION			
1.1	Oral communication					1.1	Oral communication			
1.1.1	Identify self to patient.	С	С	С	No change	1.1a	Identify self to patient.	С		
1.1.2	Explain examination procedure to patient.	С	С	С	No change	1.1e	Explain examination procedure to patient.	С		
1.1.3	Question patient to obtain relevant information regarding history and condition.	С	С	С	No change	1.1f	Question patient to obtain relevant information regarding history and condition.	С		
1.1.4	Communicate departmental reporting procedures to patient.	С	С	С	No change	1.1g	Communicate departmental reporting procedures to patient.	С		
1.1.5	Respond to patient questions or concerns.	С	С	С	No change	1.1h	Respond to patient questions or concerns.	С		
1.1.6	Communicate with patient's relatives and / or support persons.	С	С	С	No change	1.1i	Communicate with patient's relatives and / or support persons.	С		
1.1.7	Adapt communication in response to patient factors and situation.	С	С	С	REVISED: Added "factors".	1.1b	Adapt communication in response to patient and situation.	С		
1.1.8	Use medical terminology in oral communication with healthcare	С	С	С	REVISED: Combined 1.1j and 1.1k	1.1j	Communicate with other health care professionals.	С		
	professionals.					1.1k	Use medical terminology and standard abbreviations in oral communication.	С		
1.1.9	Employ conflict resolution strategies.	S	S	S	REVISED: Changed verb from "Apply" to "Employ".	1.11	Apply conflict resolution strategies.	S		
1.2	Written communication					1.2	Written communication			
1.2.1	Verify written, authorized directions for examination.	С	С	С	No change	1.2a	Verify written, authorized directions for examination.	С		
1.2.2	Record accurate and relevant medical history.	С	С	С	No change	1.2b	Record accurate and relevant medical history.	С		
1.2.3	Record examination procedures and results.	С	С	С	No change	1.2c	Record examination procedures and results.	С		
1.2.4	Ensure that documentation is timely, accurate, concise and complete.	С	С	С	No change	1.2d	Ensure that documentation is timely, accurate, concise and complete.	С		
1.2.5	Use medical terminology in written communication with healthcare professionals.	С	С	С	REVISED: Reworded to clarify competency.	1.2e	Write medical terminology and standard abbreviations.	С		
1.3	Non-verbal communication					1.3	Non-verbal communication			
1.3.1	Demonstrate professional and compassionate body language.	С	С	С	REVISED: Changed "Use appropriate" to "Demonstrate professional and compassionate"	1.3a	Use appropriate body language.	С		
1.3.2	Respond appropriately to non-verbal behaviours.	С	С	С	No change	1.3b	Respond appropriately to non-verbal behaviours.	С		

NCP \	/ersion 7.0	Gen	Card	Vasc	Changes from 6.1 to 7.0	NCP \	/ersion 6.1	Core	Gen Card Vas
2.0	PROFESSIONALISM Legal and ethical requirements					2.0	PROFESSIONAL RESPONSIBILITIES Legal and ethical requirements		
2.1.1	Adhere to relevant provincial and federal legislation and regulations.	С	С	С	Assessment Environment: changed from A to C.	2.1a	Adhere to relevant provincial and federal legislation and regulations.	А	
2.1.2	Adhere to relevant professional scope of practice and code of ethics.	С	С	С		2.1b	Adhere to relevant professional scope of practice and code of ethics.	Α	
2.1.3	Comply with requirements of provincial regulatory body, including applicable Standards of Practice and sexual abuse prevention guidelines.	С	С	С		2.1d	Comply with requirements of provincial regulatory body, including applicable Standards of Practice and sexual abuse prevention guidelines.	Α	
2.1.4	Describe the structure and function of sonography regulators , unions, and associations.	Α	Α	Α	NEW				
2.2	Professional Responsibilities					2.2	Professional judgement		
2.2.1	Create an environment that respects patient dignity and modesty.	С	С	С	REVISED: Changed "protects" to "respects" & added "modesty".	3.1f	Create an environment that protects patient dignity.	С	
2.2.2	Verify patient's identification.	С	С	С	No change	2.2a	Verify patient's identification.	С	
2.2.3	Maintain privacy and confidentiality.	С	С	С	REVISED: Removed "patient"	2.1e	Maintain patient privacy and confidentiality.	С	
2.2.4	Obtain and ensure ongoing informed consent.	С	С	С	REVISED: Added "Obtain" & removed "patient"	2.1f	Ensure informed patient consent.	С	
2.2.5	Verify that requested procedure correlates with patient's clinical history and presentation.	С	С	С	REVISED: Removed "and address concerns as appropriate".	2.2b	Verify that requested procedure correlates with patient's clinical history and presentation, and address concerns as appropriate.	С	
2.2.6	Evaluate patient preparation for requested examination.	С	С	С	No change	2.2c	Evaluate patient preparation for requested examination.	С	
2.2.7	Evaluate and address contraindications to procedures.	С	С	С	REVISED: Changed "procedure" to "procedures" & removed "and address as appropriate".	2.2f	Evaluate and address for contraindications to procedure and address as appropriate.	С	
2.2.8	Determine the need for presence of a chaperone.	С	С	С	REVISED: Changed verb from "Recognize" to "Determine". Assessment Environment: changed from A to C.	2.3k	Recognize need for presence of a chaperone.	A	
2.2.9	Identify and respond to urgent sonographic findings.	С	С	С	No change	2.2h	Identify and respond to urgent sonographic findings.	С	

NCP \	/ersion 7.0	Gen	Card	Vasc	Changes from 6.1 to 7.0	NCP \	/ersion 6.1	Core	Gen Card V	asc
2.2.10	Identify and respond to exceptions from established protocols and procedures.	С	С	С	No change	2.2g	Identify and respond to exceptions from established protocols and procedures.	С		
2.2.11	Practice within limits of personal knowledge, skill and judgement.	С	С	С	No change	2.2d	Practice within limits of personal knowledge, skill and judgement.	С		
2.2.12	Ask for guidance where appropriate.	С	С	С	No change	2.2e	Ask for guidance where appropriate.	С		
2.2.13	Demonstrate accountability for decisions and actions.	С	С	С	REVISED: Changed "Accept responsibility" to "Demonstrate accountability".	2.2i	Accept responsibility for decisions and actions.	С		
2.3	Professional conduct					2.3	Professional conduct			
2.3.1	Maintain appropriate personal boundaries with patients, their families, colleagues, and the public.	С	С	С	NEW					
2.3.2	Build the sonographer-patient relationship.	С	С	С	NEW					
2.3.3	Provide care in a manner that is respectful of individual diversity.	С	С	С	REVISED: Removed "for patient"	2.3b	Provide care for patient in a manner that is respectful of individual diversity.	С		
2.3.4	Describe the inter / intraprofessional roles commonly encountered in the workplace.	Α	Α	Α	REVISED: Changed verb from "Understand" to "Describe".	2.3c	Understand the inter / intraprofessional roles commonly encountered in the workplace.	Α		
2.3.5	Collaborate with inter / intraprofessional team members to optimize patient care.	S	S	S	REVISED: Changed "in decision making" to "to optimize patient care".	2.3d	Collaborate with inter / intraprofessional team members in decision making.	S		
2.3.6	Share knowledge with patients, colleagues, students and other members of healthcare team.	С	С	С	No change	2.3e	Share knowledge with patients, colleagues, students and other members of healthcare team.	С		
2.3.7	Provide and receive constructive feedback in a professional manner.	С	С	С	REVISED: Added "constructive"	2.3f	Provide and receive feedback in a professional manner.	С		
2.3.8	Respond to and disclose adverse events.	Α	Α	Α	REVISED: Removed "Recognize".	2.31	Recognize, respond to and disclose adverse events.	Α		
	Describe professional liability .	Α	A	Α	REVISED: Changed verb from "Demonstrate awareness of" to "Describe".	2.3m	Demonstrate awareness of professional liability.	A		
2.4	Social Responsibility									
2.4.1	Demonstrate culturally safe practice.	С	С	С	NEW: Was discussed for 6.1					
2.4.2	Demonstrate cultural humility.	С	С	С	and was a priority for 7.0,					
2.4.3	Practice anti-racism.	С	С	С	required by the regulator.					

NCP \	/ersion 7.0	Gen	Card	Vasc	Changes from 6.1 to 7.0	NCP \	Version 6.1	Core	Gen (Card Vaso
2.4.4	Engage in practices that integrate Indigenous knowledge to align with the calls to Action of the Truth and Reconciliation Commission of Canada.	С	С	С						
2.4.5	Provide inclusive and safe care based on patient factors including determinants of health .	С	С	С						
2.5	Professional development					2.4	Maintenance of competence			
2.5.1	Engage in self-reflection to critically evaluate performance and establish goals for self-improvement.	С	С	С	REVISED: Reworded to incorporate self-reflection.	2.4a	Critically appraise performance and set goals for self-improvement.	С		
2.5.2	Consolidate and apply relevant peer-reviewed research to practice.	Α	Α	Α	REVISED: Reworded to clarify competency.	2.4b	Review professional literature and assess relevance to practice.	Α		
2.5.3	Describe the importance of continuing professional development.	Α	A	Α	REVISED: Changed verb from "Demonstrate awareness of" to "Describe".	2.4c	Demonstrate awareness of need for continuing professional development.	A		
2.5.4	Describe current and emerging issues in health care relevant to the practice of sonography.	Α	Α	Α	REVISED: Changed verb from "Maintain awareness of" to "Describe".	2.3n	Maintain awareness of current and emerging issues in health care relevant to the practice of sonography.	Α		
2.5.5	Describe emerging technological developments in the field of sonography.	Α	A	Α	REVISED: Changed verb from "Maintain awareness of" to "Describe". Removed "current".	2.30	Maintain awareness of current and emerging technological developments in the field of sonography.	A		
2.5.6	Apply the foundations of scientific inquiry.	Α	Α	Α	NEW					
2.5.7	Identify opportunities for continuous quality improvement and/or innovations.	Α	Α	Α	NEW					
3.0	ASSESSMENT AND IMAGING					3.0	PATIENT ASSESSMENT AND CARE			
3.1	Examination Planning					5.1	Examination planning			
3.1.1	Assess for signs and symptoms of disease.	С	С	С	REVISED: Removed "vascular". Assessment Environment: Added C to Generalist & Cardiac.	3.3g	Assess for signs and symptoms of vascular disease.			C
3.1.2	Interpret history, signs & symptoms and other relevant information.	С	С	С	No change	5.1a	Interpret history, signs & symptoms and other relevant information.	С		
3.1.3	Correlate results from other relevant diagnostic testing.	Α	Α	Α	REVISED: Reworded to incorporate many different types of diagnostic testing.	5.2a	Correlate results from laboratory tests, aspirations and biopsies.	Α		

NCP \	Version 7.0	Gen	Card	Vasc	Changes from 6.1 to 7.0	NCP \	/ersion 6.1	Core	Gen	Card	Vasc
						5.2b	Correlate results from diagnostic imaging testing (radiography, computerized tomography, nuclear medicine and magnetic resonance studies).	A			
						5.2c	Correlate results from obstetric testing (amniocentesis, chorionic villus sampling, chromosome analysis, cell free DNA, dilation and curettage, non-stress testing).		А		
						5.2d 5.2e	Correlate results from cardiac testing (ECG, Holter monitoring, stress ECG). Correlate results from oximetry and / or			A	Α
						3.20	auscultation.			^	^
3.1.4	Integrate knowledge of anatomy and disease processes.	С	С	С	No change	5.1e	Integrate knowledge of anatomy and disease processes.	С			
3.1.5	Formulate sonographic scanning strategies.	С	С	С	No change	5.1d	Formulate sonographic scanning strategies.	С			
3.2	Operation of equipment					4.2	Operation of Equipment				
3.2.1	Apply physics principles in sonographic imaging.	С	С	С	NEW						
3.2.2	Input patient information.	С	С	С	REVISED: Changed "data" to "information".	4.1c	Input patient data.	С			
3.2.3	Select optimum system and transducer for examination considering patient factors, structures being examined and specific indications for examination.	С	С	С	REVISED: Changed "patient's age and size" to" patient factors".	4.1a	Select optimum system and transducer for examination considering patient's age and size, structures being examined and specific indications for examination.	С			
3.2.4	Select optimal preset values.	С	С	С	REVISED: Removed "determine" & changed "correct" to "optimal".	4.1b	Determine and select correct pre-set values.	С			
3.2.5	Set up 3-lead electrocardiogram (ECG).		С		No change	3.3f	Set up 3-lead electrocardiogram (ECG).			С	
3.2.6	Orient and manipulate transducer.	С	С	С	No change	4.2a	Orient and manipulate transducer.	С			
3.2.7	Monitor output display indices and adjust power output in accordance with "as low as reasonably achievable" (ALARA) principle.	С	С	С	No change	4.2c	Monitor output display indices and adjust power output in accordance with "as low as reasonably achievable" (ALARA) principle.	С			
3.2.8	Adjust instrument controls to optimize image.	С	С	С	No change	4.2d	Adjust instrument controls to optimize image.	С			
3.2.9	Identify artifacts.	С	С	С	No change	4.2e	Identify artifacts.	С			
3.2.10	Annotate images in accordance with institutional protocols.	С	С	С	REVISED: Reworded to clarify competency.	4.2f	Record patient position and plane of section on images, as required.	С			
3.2.11	Use software calculation packages.	С	С	С	No change	4.2g	Use software calculation packages.	С			
3.3	Examination (see Appendices)					5.3	Examination				

NCP V	ersion 7.0	Gen	Card	Vasc	Changes from 6.1 to 7.0	NCP \	/ersion 6.1	Core	Gen C	ard	Vasc
3.3.1	Perform sonographic examination of structures of interest using knowledge of sonographic principles, instrumentation and techniques.	С	С	С	REVISED Removed "listed in Appendices A to F".	4.2b	Perform sonographic examination of structures of interest using knowledge of sonographic principles, instrumentation and techniques listed in Appendices A to F.				
3.3.2	Select optimal acoustic window.	С	С	С	No change	5.3a	Select optimal acoustic window.	С			
3.3.3	Optimize patient position.	С	С	С	No change	5.3b	Optimize patient position.	С			
3.3.4	Employ breathing techniques to optimize the ultrasound examination.	С	С	С	REVISED: Added "to optimize the ultrasound examination".	5.3c	Employ breathing techniques.	С			
3.3.5	Interrogate anatomy in required planes of section.	С	С	С	No change	5.3d	Interrogate anatomy in required planes of section.	С			
3.3.6	Evaluate images for orientation, identification, labeling, and diagnostic quality.	С	С	С	REVISED: Added "diagnostic quality" (previously captured in 5.3f).	5.3e	Evaluate images for orientation, identification, and labeling.	С			
3.3.7	Acquire diagnostic images.	С	С	С	REVISED: was <i>Evaluate</i> images for quality, which is now captured in 3.3.6.	5.3f	Evaluate images for quality.	С			
3.3.8	Recognize sonographic appearance of normal structures.	С	С	С	No change	5.3g	Recognize sonographic appearance of normal structures.	С			
3.3.9	Differentiate artifact and normal variants from anatomic and pathologic findings.	С	С	С	No change	5.3i	Differentiate artifact and normal variants from anatomic and pathologic findings.	С			
3.3.10	Recognize, investigate, and document abnormal findings.	С	С	С	REVISED: Added "document".	5.3j	Recognize, and investigate abnormal findings.	С			
3.3.11	Modify examination based on sonographic evidence, clinical information, and patient factors.	С	С	С	REVISED: Removed "resource implications" (contained within). Changed "other contextual factors" to "patient factors".	5.3k	Modify examination based on sonographic evidence, clinical information, resource implications and other contextual factors.	С			
3.3.12	Ensure all applicable components of examination are complete.	С	С	С	No change	5.31	Ensure all applicable components of examination are complete.	С			
3.3.13	Recognize equipment limitations.	С	С	С	No change	5.3m	Recognize equipment limitations.	С			
3.3.14	Recognize technical limitations.	С	С	С	No change	5.3n	Recognize technical limitations.	С			
3.4	Related assessment techniques					3.3	Related techniques and procedures				
3.4.1	Measure blood pressure.		S	S	Assessment Environment: Changed Vascular from C to S. Removed A from Generalist.	3.3a	Measure blood pressure.		A	S	С
3.4.2	Perform palpation of areas of interest.	С		С	No change	3.3c	Perform palpation of areas of interest.		С		С

NCP \	CP Version 7.0		Gen Card Vasc		Changes from 6.1 to 7.0	NCP \	ICP Version 6.1		Gen	Card	Vasc
3.4.3	Evaluate response to dynamic maneuvers.	С	С	С	REVISED: Changed verb from "Perform" to "Evaluate response to" & removed "provocative".	3.3d	Perform provocative / dynamic maneuvers (e.g., Valsalva).	С			
3.4.4	Perform intravenous starts.		S	S	No change	3.3k	Perform intravenous starts.			S	S
3.4.5	Describe the sonographer's role in assisting with interventional procedures .	Α	Α	Α	REVISED: Changed verb from "Understand" to "Describe".	3.2a	Understand role in interventional procedures.	Α			
3.4.6	Describe the sonographer's role in the application of additional imaging techniques.	Α	Α	А	REVISED: Captures 3.2.b, 3.3e, 3.3h, 3.3i, 3.3j, and	3.2b	Understand role in transesophageal echocardiography.			Α	
					4.2h.	3.3e	Understand the application of stress echocardiography.			Α	
						3.3h	Understand the application of transrectal imaging.		Α		
						3.3i	Understand when to perform a transperineal / translabial scan.		Α		
						3.3j	Perform contrast-enhanced imaging.		Α	Α	Α
						4.2h	Perform sonographic examinations using 3-D imaging.		Α	Α	
3.5	Technical analysis (see Appendices)					5.4	Technical analysis				
3.5.1	Produce diagnostic data documenting sonographic findings.	С	С	С	No change	5.4a	Produce diagnostic data documenting sonographic findings.	С			
3.5.2	Describe the variables and their relationships within calculations.	Α	Α	Α	REVISED: Changed verb from "Understand" to "Describe".	5.4c	Understand the variables and their relationships within calculations.	Α			
3.5.3	Use spatial reasoning to interpret images.	С	С	С	No change	5.4d	Use spatial reasoning to interpret images.	С			
3.5.4	Identify and prioritize differential findings.	С	С	С	No change	5.4e	Identify and prioritize differential findings.	С			
3.5.5	Document limitations to exam quality and completeness.	С	С	С	No change	5.4f	Document limitations to exam quality and completeness.	С			
3.5.6	Formulate a technical impression and	С	С	С	REVISED: Combined 5.4b	5.4b	Formulate impression based on findings.	С			
	communicate findings to reporting physician.				and 5.4g.	5.4g	Provide a technical impression to reporting physician.	С			
4.0	SAFETY					6.0	WORKPLACE HEALTH AND SAFETY				
4.1	Patient safety					3.1	Patient safety and comfort				
4.1.1	Ensure safe patient transporting and transferring.	S	S	S	REVISED: Removed "comfortable" and "positioning".	3.1a	Ensure safe and comfortable patient transporting, transferring and / or positioning.	S			
4.1.2	Ensure safe patient positioning.	С	С	С	NEW						

NCP \	/ersion 7.0	Gen	Card	Vasc	Changes from 6.1 to 7.0	NCP \	Version 6.1	Core C	ien Card Vasc
4.1.3	Assess patient's ability to tolerate examination.	С	С	С	No change	3.1b	Assess patient's ability to tolerate examination.	С	
4.1.4	Employ sterile technique.	S	S	S	No change	3.1c	Employ sterile technique.	S	
4.1.5	Employ best practices in infection prevention and control.	С	С	С	REVISED: Reworded to ensure clarity and consistency with current best practices.	3.1d	Employ universal precautions for infection control.	С	
4.1.6	Assess, monitor, and respond to patient's physical and mental status throughout examination.	С	С	С	REVISED: Reworded to improve clarity.	3.1e	Assess and monitor patient's physical and mental status prior to and during examination, and respond.	С	
4.1.7	Perform examination in a timely manner.	С	С	С	No change	3.1h	Perform examination in a timely manner.	С	
4.1.8	Maintain awareness of patient's accessory equipment.	Α	Α	Α	REVISED: Removed "and take action as required."	3.1i	Maintain awareness of patient's accessory equipment and take action as required.	Α	
4.1.9	Recognize and respond to emergency situations.	S	S	S	No change	3.1j	Recognize and respond to emergency situations.	S	
4.1.10	Demonstrate knowledge of Basic Life Support training or equivalent.	S	S	S	No change	3.1k	Demonstrate knowledge of Basic Life Support training or equivalent.	S	
4.2	Self-protection					6.2	Self protection		
4.2.1	Determine need for additional personnel to assist in examination.	С	С	С	No change	3.1g	Determine need for additional personnel to assist in examination.	С	
4.2.2	Employ proper body mechanics when transferring, positioning or transporting patient.	С	С	С	No change	6.2a	Employ proper body mechanics when transferring, positioning or transporting patient.	С	
4.2.3	Practice ergonomic techniques.	С	С	С	No change	6.2b	Practice ergonomic techniques.	С	
4.2.4	Engage in practices to promote own physical and environmental safety.	С	С	С	No change	6.2c	Engage in practices to promote own physical and environmental safety.	С	
4.2.5	Follow standardized procedures for handling and disposing of sharps, and contaminated and biohazardous materials.	А	Α	Α	No change	6.2d	Follow standardized procedures for handling and disposing of sharps, and contaminated and biohazardous materials.	A	
4.3	Safety of the work environment					6.1	Safety of the work environment		
4.3.1	Maintain clean and orderly work area.	С	С	С	No change	6.1a	Maintain clean and orderly work area.	С	
4.3.2	Recognize hazardous conditions in the work area and respond.	С	С	С	No change	6.1b	Recognize hazardous conditions in the work area and respond.	С	
4.3.3	Maintain awareness of fire and disaster plans.	Α	Α	Α	No change	6.1c	Maintain awareness of fire and disaster plans.	А	
4.3.4	Locate emergency equipment.	С	С	С	No change	6.1d	Locate emergency equipment.	С	
4.4	Equipment maintenance					4.3	Equipment maintenance

A62	2 nd , 3 rd	Liver	С			
A63	2 nd , 3 rd	Renal pelvis	С		С	
A64	2 nd , 3 rd	Spleen	С			
A65	1 st , 2 nd , 3 rd	Stomach	С			
Um	bilical Cord and Placer	nta				
A66	1 st , 2 nd , 3 rd	Umbilical cord	С			
A67	1 st , 2 nd , 3 rd	Fetal insertion	С	Α		REVISED: added 1 st .
A68	2 nd , 3 rd	Placental insertion	С	Α		
A69	1 st , 2 nd , 3 rd	Placenta	С		А	MOVED from Placenta section (deleted "Placenta" as its own section).
A70	2 nd , 3 rd	Umbilical cord vessels	С	С	С	REVISED: Changed "Vessels" to "Umbilical cord vessels". Assessment Environment: added C to Measure; changed Doppler assessment from A to C.
	al Pelvis	1				
A71	1 st , 2 nd , 3 rd	Urinary bladder	С			
A72	2 nd , 3 rd	Genitalia	С			
Fet	al Skin					

	OBESTRICS	& GYNECOLOGY		TECHNIQU	Ξ	
GYN	and/or OB Trimester	STRUCTURE / CHARACTERISTIC	Real time assessment	Doppler assessment	Measure (2D and/or Doppler)	Changes from 6.1 to 7.0
A73	2 nd , 3 rd	Contour	С			
A74	2 nd , 3 rd	Thickness	С			Assessment Environment: removed A from Measure.
Fet	al Musculoskeleton					
A75	1 st	Gross limb development	С			
A76	2 nd , 3 rd	Feet	С			
A77	2 nd , 3 rd	Femurs	С		Α	Assessment Environment: changed Measure from C to A.
A78	2 nd , 3 rd	Fibulas	С		Α	REVISED: Changed "Fibula" to "Fibulas".
A79	2 nd , 3 rd	Hands	С			
A80	2 nd , 3 rd	Humeri	С		Α	
A81	2 nd , 3 rd	Radii	С		Α	REVISED: Changed "Radius" to "Radii".
A82	2 nd , 3 rd	Ribs	С			
A83	2 nd , 3 rd	Tibias	С		Α	REVISED: Changed "Tibia" to "Tibias".
A84	2 nd , 3 rd	Ulnas	С		Α	REVISED: Changed "Ulna" to "Ulnas".
De	termination of:					
A85	2 nd , 3 rd	Amniotic fluid	С		С	REVISED : removed "Single Pocket Evaluation ". Deleted "Amniotic fluid index".
A86	1 st , 2 nd , 3 rd	Chorionicity	С			
A87	2 nd , 3 rd	Cervical length	С		С	
A88	2 nd , 3 rd	Fetal lie	С			
A89	2 nd , 3 rd	Fetal presentation	С			
A90	1 st , 2 nd , 3 rd	Number of Fetuses	С			
A91	2 nd , 3 rd	Relation of placenta to internal os	С	С	С	MOVED from Placenta section (deleted "Placenta" as its own section). Assessment Environment: added C to Measure.
Otl	ner					
A92	1 st	Yolk sac	С		С	
A93	1 st	Gestational sac	С			NEW
A94	1 st	Fetal pole	С			NEW
A95	3 rd	Fetal breathing movement	С			REVISED: Changed "breathing" to "Fetal breathing movement".
A96	3 rd	Fetal movement	С			
A97	3 rd	Fetal tone	С			

Appendix B: Examination Techniques for the Generalist Sonographer – ABDOMEN

	ABDOMEN		TECHNIQUE	:	
STRU	CTURE / CHARACTERISTIC	Real time assessment	Doppler assessment	Measure (2D and/or Doppler)	Changes from 6.1 to 7.0
B1	Abdominal aorta	С	Α	С	
B2	Abdominal wall	С			
В3	Adrenal fossae	С			REVISED: changed "glands" to "fossae". Assessment Environment: changed Real time assessment from A to C.
B4	Celiac trunk	С			
B5	Chest and thorax	Α			
В6	Common iliac arteries	С	Α	С	
В7	Common iliac veins	Α	Α		
В8	Inferior vena cava	С	С		
В9	Pancreas	С			Assessment Environment: removed A from Measure.
B10	Peritoneal, retroperitoneal cavities / spaces	С			
B11	Spleen	С		С	
B12	Splenic vein	С	С		
B13	Superior mesenteric artery	С			
Biliar	y System				
B14	Gallbladder	С	Α	С	Assessment Environment: added A to Doppler assessment.
B15	Common hepatic duct	С		Α	
B16	Common biliary duct	С		С	
B17	Cystic duct	С			Assessment Environment: changed <i>real time assessment</i> from A to C.
B18	Pancreatic duct	С		С	NEW
B19	Intrahepatic ducts	С			
Gastr	ointestinal tract				
B20	Appendix	S	А	S	Assessment Environment : added S to <i>Measure</i> and A to <i>Doppler</i> assessment.
B21	Small bowel	А			
B22	Large bowel	А			
B23	Stomach	А			
Urina	ry tract				
B24	Kidneys	С	S	С	
B25	Renal arteries	S	S	S	

	ABDOMEN		TECHNIQUE		
STRL	ICTURE / CHARACTERISTIC	Real time assessment	Doppler assessment	Measure (2D and/or Doppler)	Changes from 6.1 to 7.0
B26	Renal veins	S	S	S	
B27	Ureters	С			
B28	Urinary bladder	С	S	С	Assessment Environment: added S to Doppler assessment.
B29	Prostate	С		С	
B30	Seminal vesicles	С		А	Assessment Environment: changed Measure from C to A.
Liver					REVISED: deleted "vasculature"
B31	Liver	С		С	
B32	Hepatic veins	С	С		
B33	Hepatic artery	С	С		
B34	Portal veins	С	С	С	

Appendix C: Examination Techniques for the Generalist Sonographer – SUPERFICIAL STRUCTURES

	SUPERFICIAL STRUCTURES		TECHNIQUE		
STRU	ICTURE / CHARACTERISTIC	Real time assessment	Doppler assessment	Measure (2D and/or Doppler)	Changes from 6.1 to 7.0
C1	Breast	А			
C2	Inguinal canal	Α			REVISED: Changed "region" to "canal".
C3	Superficial tissues	S			Assessment Environment: Changed real time assessment from A to S.
C4	Lymph nodes	С	А	Α	Assessment Environment: added A to measure and Doppler assessment.
Ne	ck				
C5	Salivary glands	А			
C6	Parathyroid	А			
C7	Thyroid	С	С	С	
C8	Neck compartments	С			NEW
Scr	otum				
C9	Epididymis	С	С		NEW
C10	Testes	С	С	С	NEW
C11	Scrotal wall	С	А	Α	NEW
C12	Spermatic cord	С	А	А	NEW
C13	Scrotal sac	С			NEW
C14	Pampiniform plexus	С	Α	А	NEW

Appendix D: Examination Techniques for the Generalist Sonographer – PERIPHERAL VEINS

	PERIPHERAL VEINS	TECHN	IIQUE	
STRU	CTURE / CHARACTERISTIC	Real time assessment	Doppler assessment	Changes from 6.1 to 7.0
Pei	ripheral veins, upper extremity, for DV	Т		
D1	Jugular vein	S	S	
D2	Innominate vein	S	S	
D3	Subclavian vein	S	S	
D4	Axillary vein	S	S	
D5	Brachial veins	S	S	REVISED: changed "vein" to "veins".
D6	Basilic vein	S	S	
D7	Cephalic vein	S	S	
Pei	ripheral veins, lower extremity, for DV			
D8	Common femoral vein	С	С	
D9	Femoral vein	С	С	
D10	Popliteal vein	С	С	
D11	Sapheno-femoral junction	С	С	
D12	Sapheno-popliteal junction	С	С	
D13	Popliteal fossa	С		MOVED from Appendix C.
D14	Deep calf veins	С	С	Assessment Environment: Changed real time assessment and Doppler assessment from A to C.
D15	Inferior vena cava	А	A	NEW
D16	Iliac veins	С	С	

Appendix E: Examination Techniques for the Cardiac Sonographer

CARDIAC TECHNIQUE										
STRUCTURE / CHARACTERISTIC		2D real time assessment	Measure (2D)	M- mode	Measure - M-mode	Colour Doppler assessment	Pulsed wave (PW) Doppler assessment	Continuous wave (CW) Doppler assessment	Tissue Doppler assessment	Changes from 6.1 to 7.0
E1	Abdominal situs	С								
E2	Cardiac position	С								
E3	Chest & thorax (adjacent, extra- cardiac)	С								
E4	Coronary vessels	А	Α			А				

	CARDIAC				1	rechnique				
	CTURE / RACTERISTIC	2D real time assessment	Measure (2D)	M- mode	Measure - M-mode	Colour Doppler assessment	Pulsed wave (PW) Doppler assessment	Continuous wave (CW) Doppler assessment	Tissue Doppler assessment	Changes from 6.1 to 7.0
E5	Hepatic veins	С				С	С			Assessment Environment: Added C to <i>PW Doppler Assessment</i>
E6	Outflow tracts	С	С			С	С	С
